

2021 Letter from the Editor-in-Chief

As the Editor-in-Chief, it is with great pleasure that I welcome you to the 11th volume of the *Journal of Internet Services and Information Security* (JISIS).

The year 2020 has been a tough year for all of us due to the pandemic's significant impact that brought unprecedented disruption on various aspects of our lives. Despite the inevitable challenges, however, we have worked hard to publish 24 high-quality research papers in four issues. Moreover, 2020 marked our 10th anniversary that brought another motivation to successfully conclude the 10th volume amid the pandemic.

This year, our main focus is to seek and publish more original research findings that address all areas of internet services and information security, especially on state-of-the-art topics including, but not limited to, *5G and beyond*, *Artificial Intelligence*, and *Blockchain* to lead and bring quantifiable impacts on the research community. Besides, we will invite reputable authors to publish their research works in our journal to encourage other authors and readers to explore various issues in the field.

Finally, I would like to offer my sincere appreciation for the authors of the four papers included in this issue and their reviewers.

Dr. Ilsun YOU¹, FIET
Editor-in-Chief
February 2021

Author Biography

Ilsun YOU received the MS and PhD degrees in computer science from Dankook University, Seoul, Korea, in 1997 and 2002, respectively. He received the second PhD degree from Kyushu University, Japan, in 2012. From 1997 to 2004, he was at the THINmultimedia Inc., Internet Security Co., Ltd. and Hanjo Engineering Co., Ltd. as a research engineer. Now, he is a Full Professor at the Department of Information Security Engineering, Soonchunhyang University. He has served or is currently serving as a General Chair or a Program Chair of international conferences and workshops such as WISA'19-20, MobiSec'16-19, and so forth. Dr. YOU is the EiC of Journal of Wireless Mobile Networks, Ubiquitous Computing, and Dependable Applications (JoWUA) as well as Journal of Internet Services and Information Security (JISIS). He is in the Editorial Board for Information Sciences (INS), Journal of Network and Computer Applications (JNCA), IEEE Access, etc. Especially, he has focused on 4/5G security, security for wireless networks & mobile internet, IoT security and so forth while publishing more than 180 papers in these areas. He is a Fellow of the IET and a Senior member of the IEEE.
