2022 Letter from the Editor-in-Chief

It is my great pleasure and honour to welcome you to the 12th volume of the *Journal of Internet Services and Information Security* (JISIS).

It was very meaningful to successfully finish Volume 11 of JISIS in 2021, as it was difficult to recruit high-quality papers and publish journals due to the ongoing coronavirus crisis after 2020. In particular, we were able to achieve JISIS ranking in Scopus Q3 as well as publishing 20 high-quality research papers from more than 10 countries. These achievements trigger us to set JISIS' goal of reaching the Scopus Q2 rankings and gaining significant citations toward top journal level this year. Our another aim is to succeed in having JISIS indexed by Web of Science.

In 2022, we will continually focus on publishing more original research findings that address all areas of internet services and information security as well as inviting renowned researchers and top-notch experts to present their innovative research results so that our readers will be inspired to take on new challenges in their field.

Finally, I would like to offer my sincere appreciation for the authors of the five papers included in this issue and their reviewers.

Proc. Dr. Ilsun YOU[1], FIET
Editor-in-Chief
February 2022

Author Biography

Ilsun YOU received the MS and PhD degrees in computer science from Dankook University, Seoul, Korea, in 1997 and 2002, respectively. He received the second PhD degree from Kyushu University, Japan, in 2012. From 1997 to 2004, he was at the THINmultimedia Inc., Internet Security Co., Ltd. and Hanjo Engineering Co., Ltd. as a research engineer. Now, he is a Full Professor at the Department of Information Security Engineering, Soonchunhyang University. He has served or is currently serving as a General Chair or a Program Chair of international conferences and workshops such as WISA'19-22, MobiSec'16-21, and so forth. Dr. YOU is the EiC of Journal of Wireless Mobile Networks, Ubiquitous Computing, and Dependable Applications (JoWUA) as well as Journal of Internet Services and Information Security (JISIS) in addition to the Associate EiC of Intelligent Automation & Soft Computing (IASC). He is in the Editorial Board for Information Sciences (INS), Journal of Network and Computer Applications (JNCA), IEEE Access, etc. Especially, he has focused on 5/6G security, security for wireless networks & mobile internet, IoT security and so forth while publishing more than 180 papers in these areas. He is a Fellow of the IET and a Senior member of the IEEE.
